

Yash Sherikar

Full-Stack Java Developer

Contact:yashsherikar1821@gmail.com | +91-8698011606

Location: Pune, India | [Portfolio](#)

Profile Summary

Full-Stack Java Developer with 1.6+ years of experience building scalable web applications and cloud-native microservices using Java, Spring Boot, React, and AWS. Experienced in Fintech and E-Commerce domains with expertise in REST APIs, distributed systems, and performance optimization. At Globe Minds, developed secure payment microservices handling production-grade transactions, integrating Stripe & PayPal with AES encryption and JWT authentication, and achieved 30% database performance improvement through indexing and query tuning. Strong understanding of CI/CD pipelines, Docker, Kubernetes, Kafka, and Agile development methodologies. MCA graduate with 9.0 CGPA.

Professional Experience

Full-Stack Java Developer

Globe minds Technology Solutions, Pune | May 2025– Present

Web Developer Intern

LogiBit Technologies, Sangli | Jan 2024 – Jun 2024

Technical Experience

- Architected and developed scalable microservices using Java and Spring Boot, processing 25,000+ daily requests with improved system performance.
- Implemented Redis caching and database indexing strategies, reducing latency and enhancing application responsiveness.
- Designed robust exception handling and monitoring systems, improving system reliability and reducing bug resolution time.
- Achieved 90% unit test coverage using JUnit and Mockito with comprehensive integration testing.
- Collaborated with Agile cross-functional teams, participating in system design reviews and delivering scalable features.
- Led design reviews and established code review standards, improving overall code quality metrics.

Technical Skills

- Languages: C,C++,Java, SQL
- Frameworks/Technologies: Spring Boot, Spring Framework, REST APIs, Microservices, Hibernate, JPA, React
- Database Systems: MySQL, MongoDB, PostgreSQL, Redis, Apache Kafka
- Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, Kubernetes, CI/CD
- Developer Tools: Git, Maven, Postman, JUnit, Mockito, Git
- Gen AI Tools: Cursor, Copilot, Claude, ChatGPT

Major Projects Worked

Digital Banking Platform – Banking & Payment Processing Domain | Client: EXELON FINTECH

- Developed enterprise banking microservices for customer onboarding, account management, fund transfers, and payment processing.
- Designed scalable REST APIs using Java and Spring Boot to process 10K+ secure banking transactions daily.
- Implemented JWT/OAuth2 security and role-based access controls ensuring PCI-DSS compliant authentication workflows.
- Optimized Redis caching and database queries, reducing transaction processing latency by 35%.

- Integrated Kafka-based event-driven processing for secure asynchronous payment handling.
- Collaborated with cross-functional agile teams to deliver production enhancements and critical banking releases.
- Technologies
- Java, Spring Boot, Microservices, REST APIs, MySQL, Redis, Kafka, Docker, AWS (EC2, S3), JWT/OAuth2
- Developed responsive React.js UI components with REST API integration, improving user experience.
- Technology: Java, Spring Boot, Microservices, REST APIs, MySQL, Redis, Kafka, Docker, AWS.

Stripe Payment Integration -E-Commerce / Fintech Domain | Client:Constellation uk

- Built enterprise payment microservices handling 1,000+ daily transactions at 99.9% success rate with full Stripe integration
- Integrated webhooks, subscription management, and automated reconciliation with OAuth2 security.
- Implemented JWT-based authentication and Spring Security role-based authorization for customer data protection.
- Participated in CI/CD deployment pipelines and cloud-based deployments on AWS EC2 for production-ready delivery.
- Technology: Java, Spring Boot, Micro services, Kafka, MySQL, Redis, Docker, Kubernetes, AWS.

Education

Master of Computer Applications (MCA) in Computer Science | *Bharati Vidyapeeth* University | CGPA: 9.00/10

Bachelor of Computer Applications (BCA) in Computer Science | *Bharati Vidyapeeth* University | CGPA: 8.38/10

Achievements & Certifications

- Postman API Certification – Postman
- Java Certification – Infosys, Hacker Rank, Learn Tube
- Solved 500+ DSA problems on LeetCode and GeeksforGeeks
- Strong understanding of Distributed Systems, Microservices Architecture, and System Design
- Guest Lecturer – Delivered technical lectures on Core Java & software development practices at multiple colleges, bridging academic theory with industry-relevant engineering skills.
- Experience working in Agile/Scrum development environments

Languages

English, Hindi, Marathi
